

III. Claims 6-7, drawn to a method for automatically computing sales tax.

IV. Claims 8-9, drawn to a method of preventing unwanted entry to a system.

Applicants herein select claim 1, drawn to an intelligent program controlled system and administration utility. Applicants herein responsively restrict examination to the invention of claim 1 for prosecution on the merits, without traverse. Applicants have herein also canceled claims 2-9 without prejudice or disclaimer.

Applicants respectfully suggest that the claims presently in the application are distinct over the prior art and that the application is now in condition for allowance. Accordingly, Applicants request that the restriction/election requirement be withdrawn and the claims be allowed.

Respectfully submitted

Hong M. Dang

Brian Short
